ABOUT ME

A self-motivated software engineering student at Lithan Academy EduCLaaS, with hands-on experience in full-stack development using PHP, Laravel, Java, and MySQL. Since April 2024, I've built projects including a POS Accounting System, a Judo Cost Calculator (Java OOP), and a responsive gym website using HTML, CSS, and JavaScript. I thrive in learning new technologies and applying problem-solving skills. Currently looking for entry-level opportunities to contribute and grow as a software engineer.

EXPERIENCES

MATHEMATICS TUTOR (SELF - EMPLOYED)

Remote | Apr 2022 - Present

Conducting personalized online Maths tutoring sessions across multiple grade levels. Teaching core concepts in algebra, geometry, and arithmetic while tracking student progress and offering constructive feedback.

WEB DEVELOPER (PART - TIME)

Remote | Aug 2024 - Present

Developing responsive websites using HTML, CSS, JavaScript, and PHP Laravel for small-scale businesses. Involved in full-stack development activities including requirement gathering, database integration using MySQL, and deployment of customized web solutions.

TECHNICAL ASSOCIATE – CLASS 2CLASS

Lithan Academy, Singapore | Oct 2025 – Present

Working on Power Apps development projects by designing, customizing, and enhancing business applications. Involved in building forms, workflows, and user-friendly interfaces while supporting low-code solutions to improve operational efficiency.

MATHEMATICS TEACHER (ENGLISH MEDIUM, GRADES 8–11)

Rawdha Aisha girls' school, Colombo 06 | JUN 2025 - OCT 2025

Delivering structured Maths lessons focused on problem-solving and exam preparation. Monitoring student progress through assessments and providing guidance to strengthen analytical and critical thinking skills
